Nino,

I'll give you a call today. I have attached an ops manual for the HEC002-A5B, this is very similar to the XT244-639C that you have.

Best regards,

Michael A. Healy

Can I get quote for the HEC002-A5B?

Thanks,
Nino

> Antonio,

I received your email about a similar product to the XT-244-639C thermoelectric chiller that you have. I have attached some information on our HEC002-A5B model which is the closest standard part number to the model you have.

Please give me a call or email if you have any questions.
